

SAFETY SURVEY

At ATI, safety is a core business value. Our suppliers are expected to hold the same safety standards that we do. As a requirement for suppliers who make deliveries and/or perform on-site work, [Safety Surveys](#) must be completed as part of the supplier qualification process.

Please complete safety survey here:

<https://myati.atimetals.com/safetysurvey/wfrmlogin.aspx>

Safety Survey Completed: Yes No

Your company's account cannot be created in our system until this information is received in full & complies with instruction on this form.

Welcome to the ATI Flat Rolled Products Contractor Safety Prequalification Survey.

ATI Flat Rolled Products is committed to making our facilities the safest in the industry for our employees, contractor employees, and the communities surrounding our plant locations. The objective of our safety policy is to prevent accidents, work-related illnesses, losses caused by injury and illness to employees, and damage to plant facilities.

Please read the instructions provided on the following sections to determine if you qualify as a contractor and to help you understand how to properly complete the survey. A purchase order cannot be issued until your survey has been approved.
