

A Military Friendly OrganizATIon

ATI is critical to U.S. national security, and the defense market is critical to ATI's strategy.

We generate annual revenues of nearly \$400 million helping the U.S. Armed Services and International Defense Allies achieve their mission.

Our Veteran Workforce

Our Veteran workforce takes pride in making an impact. We have a formal company-wide strategy and commitment to the recruitment, career development and retention of veterans and the extended military community. We value the contributions of our military community members and recognize the technical and leadership skills earned through the devotion to our company and country. Through this teamwork, we continue to work toward achieving our vision of **Solving the World's Challenges through Materials Science.**

ATI is proud to be a

Helping to Fight... and Win

ATI's work on mission-critical hypersonic, propulsion, protection and UUV systems helps power and protect in the air, on the land, and in the sea.

Veterans

Air

ATI meets the extreme challenges of advanced jet engines, airframes and vertical lift by delivering materials that improve weight and strength at the highest temperatures.

Sea

ATI's advanced nuclear propulsion materials and components enable the U.S. Navy to defeat our adversaries, deter aggression, and maintain freedom of the seas, 24/7.

Land

ATI's solutions offer high strength, light weight, and corrosion resistance, helping to make next-generation combat vehicles more survivable.

Space

Our products help to protect and defend democracy and freedom around the world. Our materials deliver global communications, navigation, and early warning against forces hostile to the U.S. and its allies.

Proven to perform.

From the edges of space to the bottom of the ocean, our materials are proven to perform - and so is our team.

Join the ranks of our proven performers who start their day at the edge of, "What if?" and pursue it until reaching, "We do." If you share our passion for working with some of the world's most amazing customers - doing the impossible, every day taking on extraordinary challenges - we should talk.

Jet Engines/Taking Flight

ATI's materials science expertise improves speed and strength, helping jet engines run hotter (nearly twice the melting point of the specialty metals of which they're made) and aircraft maneuver at supersonic speeds.

There Since the Beginning

Our history of innovative naval propulsion materials spans over 50 years, including products used on the U.S. Navy's first nuclear-powered submarine. Today, ATI materials continue to enable the propulsion systems of nuclear aircraft carriers and submarines.

No Speed Limit

Missiles demand the best that materials can offer. Propulsion, maneuverability, and lethality require exceptionally strong, high temperature materials that excel under extreme conditions. ATI's Relentless Innovation powers all classes of missiles and is helping to make hypersonics systems a reality.

Survivable and Maneuverable

ATI's titanium provides premium armor protection for the M1A2 SEPv3 Abrams tank and other combat vehicle systems. Our high-strength materials enable enhanced protection even in the toughest situations.

It All Hangs On Our Forgings

A heavy-lift military helicopter can hoist a combat vehicle into the air, carry it 50 miles, and stick the landing perfectly. Our forgings give its rotor hub assembly the incredible strength and durability it needs for the mission.

Additive advantage for UUVs

ATI's additive design and manufacturing enables rapid prototyping and production of critical structural components for Unmanned Underwater Vehicles, delivering high-performance, corrosion-free operation in demanding deep water environments.

ATI Core Values

Integrity

We do the right things the right way; it's the cornerstone of our relationship with every stakeholder.

Safety & Sustainability

We are committed to a Zero Injury Culture, protecting our people and the planet through our products and the way we operate.

Accountability

We do what we say we are going to do. We set a standard for excellence and hold ourselves and our team accountable for our actions, results and delivering value for our customers.

Teamwork & Respect

We seek and celebrate diverse views, capabilities and experiences to power our collaborative work environment.

Innovation

We embrace change and unique perspectives to create sustainable value, acting with urgency and taking calculated risks to learn and continuously improve.

ATI at a Glance

ATI is an international company with **more than 6,000 employees** across nearly 20 locations in Europe and Asia, and more than 30 in the United States.

ATI touches **more than 50% of the naturally occurring elements on the periodic table** by managing in, managing out, or through our processes.
