Subject: Natural Gas Composition

ATI Flat Rolled Products (ATI FRP) has various material processing locations with furnaces that heat our material for processing. All of the furnaces within ATI FRP use natural gas or electricity as the heating source, no furnaces utilize oil.

The following distributors supply natural gas to ATI FRP facilities for use in material processing furnaces. These distributors supplied the following information in regards to natural gas specifications that they impose on their suppliers:

Distributor/Producer	Hydrogen Sulfide	Sulfur
East Ohio Gas	4ppm max. by volume	10ppm max. by volume
Peoples Natural Gas	0.25 grains per 100 cu. ft. max.	10 grains per 100 cu. ft. max.

Regards,
